

詹傑宇 (Chieh-Yu, Chan)

Location: Tainan, Taiwan | Email: jk29666338@gmail.com | Website: jyu1999.com

Professional Summary

CHIEH-YU is a results-oriented **Backend Developer and Technical Mentor** with over 3 years of experience specializing in PHP/Laravel. He is a **problem solver** with a strong sense of **ownership**, excelling at translating business requirements into scalable architectures and consistently delivering high-value outcomes.

Core Skills

- Expert proficiency in **PHP (Laravel)** with a focus on building scalable backend architectures and high-precision business engines, supported by comprehensive **automated testing (PHPUnit)** for long-term maintainability.
- Strong experience in database design and performance optimization using **MySQL** and caching strategies with **Redis**.
- Working experience with DevOps practices and automation — specializing in **Docker** and optimizing **GitLab CI/CD** workflows.
- Working experience with **Agile** project management tools (**Jira** and **Confluence**) to facilitate cross-functional collaboration and streamline delivery processes.
- Professional background in **business logic analysis and system architecture**, translating legal and financial regulations into robust technical solutions.

Work Experience

芙洛可文化科技 (Furuke)

Backend Developer

Taipei, Taiwan (Remote)

Nov 2023 – Present

- Business Transformation:** Spearheaded the architecture of a high-precision tax and automated payout engine, ensuring 100% data integrity and legal compliance for creator distributions.
- User-Centric Automation:** Designed self-service tax verification and automated withdrawal features, replacing manual back-office tasks and significantly increasing satisfaction.
- Performance Optimization:** Proactively identified bottlenecks; refactored complex SQL and optimized indexing, resulting in over 100% performance improvement for critical API endpoints.
- Efficiency Innovation:** Overhauled GitLab CI/CD workflow within 48 hours, reducing execution time by 43% and accelerating the team's delivery velocity.

森淨科技 (AmasTek)

Backend Developer

Tainan, Taiwan (Hybrid)

May 2023 – Oct 2023

- End-to-End Ownership:** Owned full lifecycle of custom software projects, from initial system architecture and database design to final deployment.
- Digital Transformation:** Collaborated to build a digital transformation solution from scratch using Ruby on Rails, successfully digitizing core business processes.

Other Experience

好想工作室 (GoodIdea Studio) Backend Camp

Technical Mentor

Tainan, Taiwan (Hybrid)

Nov 2023 – Present

- Technical Leadership:** Guided 15+ career-changers by providing structured learning paths and resolving complex technical challenges in backend development.
- Code Review & Architecture:** Conducted regular code reviews and architectural discussions to ensure best practices in RESTful API design and database modeling.

Education

National Tsing Hua University (國立清華大學)

Bachelor of Engineering

Hsinchu, Taiwan

Sep 2018 – Jun 2022

- First Specialty: **Industrial Engineering and Engineering Management**
- Second Specialty: **Computer Science**

Certification

TOEFL iBT 95: Fluent in professional English communication and technical documentation.
